**REPORT OF THE COURT OF WARDS OF THE UNITED
PROVINCES FOR 1929-30.**

No. 2017/X—805-30.

FROM

W. CHRISTIE, Esq., M.C., I.C.S.,
SECRETARY, BOARD OF REVENUE,
UNITED PROVINCES,

TO

THE SECRETARY TO GOVERNMENT, UNITED PROVINCES,
REVENUE (A) DEPARTMENT.

Dated Allahabad, May 1, 1931.

SIR,

I AM directed to submit the annual report on the working of the Court of Wards of the provinces for the year ending on September 30, 1930. *Present :*
J. C. SMITH, Esq., C.I.E., I.C.S. Sir Ralph Oakden, KT., C.S.I., O.B.E., I.C.S., continued to hold charge of the department till the close of the year.

2. Of the 216 estate accounts due, 97 were received on or before December 15, 1930, the due date. One hundred and seven accounts were received by the end of January last, while nine reached this office in February and three in the second week of March. The last two received related to the Mirzapur district.

The Board hope that district officers and Commissioners will pay more attention to the punctual submission of these accounts in future.

3. During the year fourteen estates with a rent roll of 7.60 lakhs were taken over and seven with a rent roll of 1.94 lakh were released, thus increasing the number under superintendence from 202 to 209. At the beginning of the year 29 proposals for assumption of charge were pending and an equal number were received during the year. Charge was assumed in 14 and refused in 25, thus leaving 19 cases pending when the year closed; the main ones being (1) Shahpur (Muzaffarnagar), (2) Sita Rasoi (Sitapur), (3) Pahu (Rae Bareli), (4) Dhingwas (Partabgarh), (5) Surajpur and (6) Pandey Piarey Lal (Bara Banki) estates in which inquiries were made under section 9 of the Court of Wards Act. In the case of nos. (1), (4) and (6) charge was assumed after the close of the year; proposals were dropped in no. (5), while a fresh inquiry under section 9 is in progress in no. (3). In the Sita Rasoi estate no. (2) it has since been decided

that action be deferred for another two years and the management be watched carefully.

4. The following statement gives details of the 14 estates of Estates taken under which charge was assumed during the year. management. A brief narrative of the two more important ones is also given :—

District.	Name of estate.	Section of the Court of Wards Act under which proprietor is disqualified.	Date of assumption of charge.	Annual demand for rent and sayar.	Estimated debts on the date of assumption.
1	2	3	4	5	6
				Rs.	Rs.

Babu Bharatendu, the late proprietor of the estate, who was a Bharatendu estate, prominent rais and Government treasurer, died in November, 1928. In the interests of his two minor sons action was taken by the Collector under section 14 of the Court of Wards Act on November 23, 1928.

In addition to the zamindari property which was mismanaged, the late proprietor owned a large number of shares in various companies and also carried on banking and grain businesses on an extensive scale. The affairs of the estate were complicated and to put them right technical knowledge was very essential. The Board, realizing the real difficulty in the management, were at first diffident to intervene, but at the request of the late proprietor's father-in-law, Rai Bahadur Lala Sewak Ram of the Punjab, the estate was allowed to be retained under section 14, and the family was given a chance to close the share investment accounts and the grain business. After these transactions were wound up by the relatives of the family, the Court of Wards in the interests of the minor proprietors sanctioned the assumption of charge of the estate with effect from March 11, 1930.

During the period the estate remained under section 14 the majority of the shares in various companies were sold; only a few now await disposal for want of Letters of Administration which have been applied for. All the over-draft accounts were cleared and most of the fixed deposits refunded. The grain shop has been closed by clearing off the liabilities due against it. A total sum of 2.21 lakhs (odd) was paid on these accounts from the sale of grain and of the shares in companies.

The debts due by the estate have not yet been fully ascertained. Its financial position, however, appears satisfactory. The assets and liabilities at the close of the year were estimated at Rs. 1,21,584 and Rs. 1,01,608 respectively.

The rent roll with sayar of the landed property, which consists of two entire villages, five mahals and 31 shares, amounts roughly to Rs. 34,300. Since the business part of the estate has been almost closed, it ought to be possible to concentrate on its zamindari portion and to extend it considerably during superintendence.

A brief history of the estate is given on pages 96-97 of the District Gazetteer. With the exception of a few villages in the Mirzapur district, the bulk of the estate is in a compact block comprising nearly the whole of the Amethi tahsil and affects the welfare and prosperity of a large section of the tenantry in the district. But the estate has long been notorious for mis-management. The tenants were heavily oppressed and suffered many illegal exactions. Agricultural improvements benefiting them were entirely neglected and money was squandered in useless pursuits. The Raja was also a habitual defaulter in payment of land revenue. Such an unsatisfactory state of affairs had been engaging the attention of Government since 1915, so when the debts due by the taluqdar reached the high figure of 15 lakhs approximately, the Deputy Commissioner of Sultampur was directed by Government in 1929 to institute a fresh inquiry under section 9 of the Court of Wards Act, 1912, into the circumstances and indebtedness of Raja Bhagwan Bakhsh Singh, the present owner of the estate. As a result of this inquiry Government were satisfied that the Raja had entered upon a course of extravagance and that his failure without sufficient reason to discharge the debts and liabilities was likely to lead to the dissipation of the property. The Raja was accordingly declared by the

Local Government to be incapable of managing his own property in accordance with the provisions of clauses (d) (iii) and (iv) of sub-section (1) of section 8 of the Act, and charge of the estate was assumed by the Court of Wards with effect from March 7, 1930.

The estate consists of 315 whole mahals and 5 shares with a rent roll amounting to Rs. 5,71,627. The estimated debt at the time of assumption was Rs. 14,45,160, but the subsequent inquiry under section 17, Court of Wards Act, has proved it to be more.

5. Seven estates were released from the superintendence of the Court of Wards during the year, as detailed in the following statement:—

District.	Name of estate and date of release.	Year of assumption of charge.	Debts on assumption of charge.	Rent roll on assumption of charge.	Debts paid from sales	Debts paid from surplus profits.	Rent roll on release.	Cash balance and securities made over.

* Decrease due to the retention of the relinquished holdings by the late proprietor as khudkasht.

6. Compared with the previous year, the total current rental demand rose from Rs. 1,43,25,416 to Rs. 1,53,20,770. The increase is mainly due to the assumption of charge of new estates, including Amethi (Sultanpur) with a rent roll of 5.72 lakhs approximately. Consequent on the failure of crops, Rs. 2,39,012 was remitted and Rs. 2,267 suspended. Advance collections amounted to Rs. 1,45,264, while Rs. 1,38,282 was secured by decrees and Rs. 6,052 by bonds. Barring these items, the net recoverable demand amounted to Rs. 1,47,89,893 of which Rs. 1,39,11,115 or 94.0 per cent. was collected against 93.4 per cent. in the preceding year.

Apart from the abnormal fall in prices, natural calamities had also an adverse effect in this division, with the result that the percentage of collections, after allowing

Meerut division.

for remissions and suspensions to the extent of Rs. 47,862 and Rs. 1,839 respectively, fell from 82.1 to 75.5, which was the lowest in the provinces. In Dehra Dun the Sahaspur estate fared well and showed a record percentage of 98. Owing to a succession of bad years and economic depression collections in six estates in Saharanpur were between 80 and 89.8 per cent. only. In the premier estate of Landhaura the damage caused by locusts and rack-renting by the ex-lessees were also responsible for the poor results. The other two estates (Jagdish Prasad and Niaz Muhammad Khan) realized only 76.2 and 71.3 per cent., respectively owing to the usual difficulties which hamper collections in the first year of management. With the exception of the Bera Sadat estate which maintained its standard of cent per cent. collections, the recoveries in the remaining eight estates of the Muzaffarnagar district were between 57.1 and 79.8 per cent. The very low percentage of 57.1 in the Jagdish Prasad estate, which was the lowest in the division, is also attributed to gross mismanagement and manipulation of records in the pre-Court of Wards time. The miserable condition of the district as a whole was chiefly due to the series of bad harvests and the damage caused by top-borer insects and locusts. In the Meerut district the fall in the percentage from 82.4 to 73.7 was not only due to the seasonal calamities but also to the slackness of management. The touring of the special manager, who has now been replaced, was very inadequate. The realizations in the Bulandshahr district were also far from satisfactory, due partly to the failure of crops and political activities in some of the estates, and partly to the inefficiency of the collecting staff owing to the lack of proper supervision by the former special manager who was removed during the year.

The reports from this division generally relate the adverse economic condition of the tenantry consequent on the failure of the monsoon, locust invasion, slump in prices and successive bad years. Compared, however, with the preceding year, the collections on account of the current demand in the division increased from 3.78 lakhs to 4.57 lakhs and the percentage rose from 76.8 to 80.4.

About 11 per cent. of the demand against 25 per cent. in the previous year was remitted. Agra district suffered most, where remissions amounted to about 44 per cent. Next comes Muttra with 18 per cent. Rents were also remitted in Aligarh and Etah, chiefly in the Chiranjil Lal, Umargarh and Pubra estates.

Apart from the economic depression, poor results in some cases were also due to the slackness of the collecting staff combined with inadequate supervision. Suitable orders have already been passed by the Board while reviewing the accounts of the estates concerned, and it is hoped better results will be shown during the current year.

The percentage of collections in the Rohilkhand division was nearly the same as before, viz., 89 per cent. against 89.6 per cent. in the previous year. They were almost full in the Keolaria (Bareilly), Govind Sahai (Moradabad) and Umrao Singh (Pilibhit) estates. In thirteen estates the realizations varied between 90.2 and 98.8 per cent. Collections were uniformly good in the Bareilly-cum-Pilibhit districts. There was a slight improvement

in the Sahespur-Bilari estate (Moradabad), but a decrease in the Kanth estate of the same district.

The adverse agricultural conditions along with the economic depression are given as the reasons for the poor results in the Shahjahanpur district, specially in the Paraur no. II, Sher Bahadur Singh, Brijpal Singh and Lashkarpur estates.

There was a general fall in all the estates in the Bijnor district due chiefly to the failure of paddy and sugarcane crops, and the slackness of the collecting staff in some estates. For the latter steps have already been taken to effect an improvement, and better results ought to be shown during the current year.

Rents totalling Rs. 2,057 were remitted, Bareilly alone being responsible for Rs. 1,268 and Moradabad for Rs. 712.

Due chiefly to the economic depression the divisional percentage of collections of the current demand fell from 93·5 to 91·5. Rents to the extent of Rs. 12,704 and Rs. 428 were remitted and suspended. Poor results were conspicuous in the Farrukhabad district where collections in 8 out of 10 estates ranged between 75·3 and 87·6 per cent. In spite of unfavourable conditions the Board consider better results should have been shown. In Etawah collections improved in the Partapner estate, but in the other two estates there was an appreciable decrease which is ascribed to the fall in prices. Realizations in the Cawnpore district were quite satisfactory in all the estates except in those of Daulat Ram and Ashiq Husain. Besides the general causes, the progress in the former estate was also impeded by the party who has filed a title suit against the ward. There was a marked improvement in the collections in the Allahabad district.

Compared with the preceding year the percentage of collections of the current demand in the Jhansi division rose by ·1. Excluding the remissions of Rs. 326 in all the estates, the results achieved in the Jhansi district were quite satisfactory. In the Sikri and Rampura estates (Jalaun), where Rs. 15,166 and Rs. 18,851 respectively were remitted owing to drought, the recovery of the balance was almost full. In spite of the remission of about 40 per cent. of the demand in the Babu Lal estate (Banda) collections were bad. The other two estates in this district also did not fare well. These poor results are attributed to the failure of crops and to slackness of management.

The divisional percentage of collections rose from 94·6 to 97·0 and was second in the provinces.

Benares division.

Out of the 12 estates in the Benares, Ghazipur and Ballia districts which are under one special manager the full demand was realized in eight, while in the remaining four collections were not less than 98·8 per cent.

The percentage of collections of the current demand in the Mirzapur district remained almost the same as in the preceding year. The poor results in the Mahant estate were chiefly due to the chaotic management of the pre-Court of Wards days. Compared with the preceding

year, the realizations in the Bagha estate were better. The collections in the other estates were quite satisfactory.

Considering the conditions of the year collections in the Gorakhpur division. division were satisfactory, though the percentage of realizations of the current demand fell from 99·6 to 98·7. The Rasulpur estate (Azamgarh) maintained its standard of cent. per cent. collections. The straitened circumstances of the tenants consequent on the partial failure of the monsoon account for the somewhat low percentage in the Basti district. Due to the assumption of charge of the Balua estate (Gorakhpur) during the year, collections were only 96·0 per cent. The realizations in the other two estates in this district were quite satisfactory.

The recovery of rents in all the estates in Sitapur and Kheri was almost full, and there was a creditable rise in the percentage of collections in consequence. But, in spite of these better results, the divisional percentage of collections remained stationary because the realizations in the other districts were much below the standard. Except in the Bahwa estate, the collections in Rae Bareilly varied from 80·1 to 87·4 per cent. Out of the four estates in Hardoi, the recoveries in Bhogaitapur and Kakrali were unsatisfactory. The same holds good in the case of the Manzoor Ali and Masud Ali estates in Lucknow, and the Mahmudabad, Galgalha and Behar estates in Unao. Even allowing a margin for the general fall in prices, which is given as the chief cause for the low realizations, the Board consider that better results could have been shown had the management been more alert, especially in the Hardoi district.

Although the percentage of collections of the current demand in this division fell from 99·7 in the preceding year to 98·7, it was still the highest in the provinces. Out of 30 estates, collections were made in full in seven. The results achieved in the remaining estates were satisfactory, and in most cases very creditable. Due to the release of the Ata estate (Gonda) during the year realizations were only 83·1 per cent. Considering it was the first year of management of the Amethi estate (Sultanpur) and the mismanagement of the pre-Court of Wards days, collections at 94·6 per cent. were very good. Remissions out of the current demand amounted to Rs. 38,816.

The year was one of recovery after the famine of the preceding year, and it is exceedingly gratifying that it has been so rapid and complete. The collections of the current demand at 95·4 per cent. against 86·6 per cent. of the previous year not only corroborate this, but substantiate that the policy of instituting relief works during the famine was sound, and that as a result of this the tenants were very little affected. The realizations in the portion of the estate lying in the Partabgarh district were 98·9 per cent., which was also very satisfactory. Remissions to the extent of Rs. 24,198 and Rs. 33,241 were made in the current and arrear demands respectively.

7. The total payments on account of land revenue, rates and cesses, including those of suspended revenue falling due within the year, but not remitted, amounted to Rs. 53,62,963. This sum also includes Government revenue, rates and cesses.

Rs. 17,854 adjusted on account of the excess payments made in the preceding year. Owing to seasonal calamities land revenue to the extent of Rs. 75,413 was remitted and Rs. 4,481 suspended. The incidence of the current demand, excluding Rs. 597 paid in excess by a few estates, for revenue, rates and cesses, falls at 35.0 per cent. on the current rental demand and at 38.5 per cent. on the current rental collections.

A sum of Rs. 4,009 could not be paid by a few estates, specially in the Agra district, for want of funds.

8. Due to the assumption of charge of a number of estates, the total cost of management increased slightly from Management charges. 16.30 lakhs to 16.86 lakhs. It is, however, noteworthy that the percentage decreased from 12.8 to 10.6. The incidence of cost was under 10 per cent. in 43, between 10 and 15 per cent. in 143 and over 15 per cent. in 24 estates. While reviewing the annual reports of the estates concerned, the Board have emphasized the necessity for economy and directed that the cost of management should be reduced to the minimum without impairing efficiency.

The scheme for replacing ziladars by "*dēhati karindās*" (honorary workers) worked in certain estates in Muzaffarnagar, Sitapur and Kheri. In the Murarmau estate (Rae Bareilly) it has, however, not proved successful.

The scheme was originated in Sitapur by Mr. Dunne, the special manager, but its applicability to all districts is doubtful and its extension to other areas has been held up for the present.

9. For the sake of more efficient management the Muttra-Agra scheme was transformed into the Agra-Aligarh scheme under a special manager with headquarters at Agra. The estates in Muttra, with the portion of the Prem Pratap Singh estate in Aligarh, remained under a separate special manager. On the assumption of charge of new estates, the special scheme of management was also introduced in the districts of Muzaffarnagar and Mirzapur. The total number of special scheme managements thus rose from 24 to 27.

10. The total charges on the maintenance and education of wards and their families amounted to Rs. 35,27,896 Maintenance and education of wards. against Rs. 43,58,618 in the previous year. The latter figure was swollen on account of the marriage expenses of the sixth Maharaj Kumari of Balrampur. In all there were 114 wards, including 10 girls, between the ages of 10 and 21. Eighty-five wards (including 13 below 10 and two adults) were reading in various schools and colleges, while 23 received education privately. Rupees 2,25,859 was spent on the education of wards and Rs. 64,819 on their relations numbering 105.

Sixteen wards and six relations received education at the Colvin Taluqdars' School, Lucknow, and three wards and three relatives at the Agricultural College, Cawnpore, Hewett Kshattriya School, Benares, and Muslim University, Aligarh. The rest were at different institutions. The reports on the progress made in their studies were generally satisfactory. The important events of the year are summarized below.

The proprietor of the Shambhu Nath estate (Allahabad) and one of the sons of the ward of the Fateh Chand estate (Muzaffarnagar) passed the final LL.B. examination and joined the Bar. The ward of the Bhan Pratap Singh estate (Bulandshahr) obtained his B.A. degree. The ward of Kashipur and his two younger brothers continued their studies in England and did well. Saiyid Sajid Husain, ward of Kotwara (Kheri), remained at the Edinburgh University, which he joined last year. The junior ward of the Seth estate (Muttra) stayed at Colonel Brown's School, Dehra Dun, and his progress was good. Saiyid Iqbal Mehdi, the elder ward of the Nehtaur estate (Bijnor), and Saiyid Aijaz Rasul, the proprietor of the Jalalpur estate (Hardoi), passed the provincial training class examination for honorary magistrates. The ward of Rampura (Jalaun) was at the Colvin Taluqdars' School under a whole-time tutor, Mr. Vaughan. His illness kept him back to begin with, but he has now made up the deficiency and is doing quite well. The change of institution in the case of Bhaiya Suraj Prasad Singh and the appointment of Mr. Gordon as his tutor appear to have produced some beneficial effect, but not as much as was hoped for. The Maharaja of Balrampur was under the tutorship of Mr. Chard for the first two months of the year, but from December, 1929 Captain N. D. O'Toole was appointed tutor-guardian of the Maharaja, who joined the Mayo College, Ajmer, in July last. His progress there has been very marked, and the results so far achieved have fully justified the action taken in sending him to that college. The minor ward of the Pipri estate (Bahraich) was admitted to the Queen Mary College, Lahore, where his two sisters were reading. The progress made by the great-grandson of the Rani of Katesar at the Colvin Taluqdars' School was quite satisfactory. The minor ward of the Kuntala Rikh estate (Bijnor) passed with honours his annual examination at the St. Joseph's College, Naini Tal.

Bibi Krishna Kumari, daughter of the Landhaura ward, and Miss Bhakti Devi, sister of Prem Pratap Singh (ward), made satisfactory progress under the tutorship of Mrs. Sewell, Miss Lakshmi Bai and Miss Goshal. The two minor female wards of the Kuntala Rikh estate (Bijnor) passed with honours their annual examination at the Convent of Jesus and Mary, Mussoorie. Miss Kaniz Zaidi, the sister of the Kotwara ward (Kheri), passed creditably the standard I examination of the Cainvillee School, Mussoorie. Mrs. Cursetjee held charge both of Kishori Lalli of Shahpur (Gonda) and Lalli Sahiba of Kurwar (Sultanpur). Miss Bell looked after the eldest daughter of the Raja of Dera (Sultanpur) for a portion of the year. Mrs. Holden has recently been appointed governess of the daughter of the third Rani of the Qila Partabgarh estate and Mrs. David of the two girls of the Dalippur estate in the same district.

Of the fourteen wards or ex-wards who were trained in estate management, two worked as honorary assistant managers, three as honorary sarbarahkars and four as ziladars of their estates. The rest received training in estate management. Of the honorary workers, Thakur Brijbir Singh (ward) was put in charge of his whole estate. Chaudhari Surendra Singh of Mahmudabad (Unao) discharged very creditably the duties of independent assistant manager of his estate.

The ward of Sahespur Bilari (Moradabad) joined the Provincial training class and after finishing the course in March, 1930, he was appointed as an honorary assistant manager of his estate in which he is taking interest. The others took little or no interest.

Bhanwar Yuveraj Dutt Singh of Oel showed some zeal in his work as honorary assistant manager. Babu Kedar Narain Singh, the reversioner to Ausanganj, did not unfortunately apply himself to the work satisfactorily. As last year, Raja Jagdambika Pratap Singh of Ajodhya could not go out in camp. He received the King's Commission as a 2nd Lieutenant and was elected to the United Provinces Legislative Council as a member.

The wards of 11 estates spent the summer in the hills, the chief of them being the Maharaja of Balrampur, the Maharani of Ajodhya and the Rajas of Baraon, Oel and Rampura.

The health of the wards and of their relations was generally good.

11. The debts outstanding at the close of the year amounted to 215.04 lakhs, against 195.93 lakhs in the preceding year. Assumption of charge of the Amethi estate (Sultanpur) with liabilities amounting to about 18.33 lakhs is mainly responsible for the increase. A sum of 16.70 lakhs was raised by loans, 9.26 lakhs being from Court of Wards estates and 7.44 lakhs from other sources. Out of this sum debts carrying higher rates of interest were consolidated to the extent of 12.51 lakhs and ceremonies absorbed Rs. 69,500, while 2.07 lakhs were utilized on the purchase of property and the remainder (1.43 lakhs) on miscellaneous objects. Debts repaid during the year amounted to 51.96 lakhs against 36.07 lakhs in the previous year. The former is composed of 12.51 lakhs from fresh loans, 7.52 lakhs from the sale of property and 31.93 lakhs from the surplus profits.

Compared with the preceding year, repayments from the surplus profits increased by 10.54 lakhs.

Due to the general economic depression affecting collections and sales progress towards the liquidation of debts was in many estates retarded, as in a number of cases the liquidation schemes could not be worked up to. In some estates, however, lying in the Kheri, Sitapur, Hardoi and Moradabad districts, payments were over and above the sums earmarked in the schemes. Due to the reservation of a large sum for *tagavi* advances and the purchase of shares in a village, the amount paid towards the liquidation of debts by the Ajodhya estate was short of the provision in the liquidation scheme, but in excess of the budget allotment. The estate is, however, ahead of the scheme so far.

Consequent on the property market being dull, as in the preceding year, the liquidation of debts continued to cause anxiety to the Board in some of the estates, viz., Sikri (Meerut), Nagar, Ram Devi (Agra), Thalwansa (Rae Bareilly), Kakrali (Hardoi) and a few others especially in the Farrukhabad district, where liabilities have assumed excessive proportions and the salvation of the estates entirely depends on sales.

12. The total expenditure on various kinds of improvements amounted to 14.71 lakhs against 12.74 lakhs in the preceding year. A rough classification is noted below:—

					Rs.
1.	Roads	1,20,967
2.	Irrigation	88,527
3.	Drinking wells	33,779
4.	Agricultural improvements, including farms	1,26,777
5.	Stock breeding	62,704
6.	Arboriculture	10,900
7.	Original works other than buildings	17,840
8.	Buildings other than wards' residential buildings	1,12,579
9.	Petty works	69,807
10.	Miscellaneous, including tools and plant	67,377
Total					7,11,257
Construction and repairs of buildings—					
(a)	Residential	2,19,024
(b)	Medical	27,836
(c)	Educational	21,074
Total					2,67,484
Maintenance and repairs					3,54,288
Establishment					1,83,885
GRAND TOTAL					14,71,964

Figures showing the proportion of the profits devoted to agricultural improvements, irrigation projects, etc., in thoroughly solvent estates are given in statement III. The percentage spent on roads and communications and public buildings was .93. There was a further fall of expenditure by Rs. 76,310 on buildings other than wards' residential buildings as compared with the preceding year. It is at the same time worth mentioning that works of public utility, viz., roads, irrigation, drinking wells, agricultural improvements, etc., received particular attention, expenditure on items 1 to 6 *supra* being in each case higher than in the previous year.

13. The thanks of the Board are due to the Director of Agriculture for a note on improvements, extracts from which Improvement of water-supply are given below:—

"About 1.5 lakh of rupees was spent during the year under report by the Court of Wards estates on the various schemes for increasing irrigation resources. This has protected an additional area of about 5,000 acres. The reports received from the district officers show that about 590 wells in all were completed or commenced by the estates at a total cost of about Rs. 70,930. In addition to this Rs. 17,350 was spent by the estates over the repairs of 225 wells. The estates also helped their tenantry with cash or wood and material in putting down nearly 222 wells, the cost of which may roughly be put at Rs. 20,000. The tenants themselves constructed about 85 *pakka* and a few *kachcha* wells at an approximate cost of Rs. 14,460. The Ajodhia estate in the Fyzabad and Gonda districts as usual tops the estates in developing irrigation resources. Next come Ramnagar in the Gonda district and Oel in the Kheri district. The Dera and Shahpur estates in the Sultanpur and Gonda districts respectively have also done good work

in this direction. About Rs. 21,000 was spent on boring, pumps, pipes, and making of bundhs and tanks.

“ A number of solvent estates maintained seed déptts, which distributed improved seeds recommended by the Agricultural department. The tenants of the Ajodhia estate purchased about 9,000 maunds of improved sugarcane, wheat and *kharij* seeds from the Agricultural department for sowing purposes. The Court of Wards estates in the Muzaffarnagar district purchased for sowing and distribution about 1,203 maunds of improved seeds. The Sahaspur-Bilari estate distributed among its tenants about 500 maunds of improved seed. The tenants now understand the advantages of sowing improved seeds.

The Meston ploughs are popular among the cultivators. The Court of Wards and Agricultural exhibitions have given many improved implements to tenants as prizes. Some of the estates encourage the use of improved implements by purchasing them and giving them on *tagavi* or hire-purchase system. The Ajodhia estate advanced a large sum of money to the cultivators for the purchase of improved implements. The estate has also many Persian wheels, chaff cutters and a tractor. The Katesar estate has a cane crusher and a rice huller.

“ The Oel estate in the Kheri district has a cattle-breeding farm which is doing useful work. Some of the other estates are realizing the importance of breeding improved cattle. Breeding bulls and buffaloes are maintained by the estates of Sahaspur-Bilari (Moradabad), Katesar (Sitapur), Ausanganj (Ghazipur) and Dera (Sultanpur). The Ajodhia estate maintained as many as 62 bulls obtained from the Cattle-breeding section of the Agricultural department. Two estates maintain superior rams to improve the local breed of sheep.

“ About 700 acres of land in the Court of Wards estates were re-claimed and brought under the plough during the year under report. The Kanth estate (Moradabad) did well in this direction.

Tree plantation received adequate attention by the Oel (Kheri), Fatehchand (Muzaffarnagar), Ausanganj (Ghazipur), Katesar and Rampur Mathura (Sitapur) and other solvent estates.”

14. As in the preceding year, some useful work was done in the Court of Wards villages in the Partabgarh district in co-ordination with the united activities of the Co-operative, Agricultural and Rural Reconstruction departments. The “ Better Farming Union ” and the “ Better Living Societies ” which have been formed there have been concentrating their energies on selected villages to make known the use of improved seeds and implements and the advantages of better farming, sanitary surroundings, adult education, physical culture and a brighter life generally. Houses were white-washed for the first time in Khajuri and Pure Ajmer Shah. Three more adult schools were opened bringing the total up to six. A “ Seva Samiti ” was also started by the Bishnathganj Society. The Partabgarh portion of the Balrampur estate is practically maintaining a girls’ school started by the Naurera Co-operative Society. The estate has also agreed to spend Rs. 450 on the construction of a building for the school. The Court of

Wards also granted lands for the installation of an engine and cane crusher by the Agricultural department, and for the plantation of babul trees by the members of the co-operative society at Khajuri, which would eventually save most of their cow-dung for manure purposes. Some assistance was also given by the Court of Wards towards the district scheme of reclamation of the Pasi community by providing land in one of its villages for their residence and agriculture.

In Moradabad a number of new drinking wells on sanitary patterns were constructed by the Court of Wards for the benefit of the tenantry including the depressed classes, while the old wells were cleaned and disinfected with permanganate of potash. Insanitary pits around the platforms of the drinking wells and those near the "abadi" were filled up. Every assistance was given to the Public Health department in the construction of rubbish-bins in nine estate villages and tenants were persuaded to heap their rubbish in them instead of putting it in pits close to the "abadi." Village schools and village aid dispensaries were opened. The assistant manager was awarded a "sanad" by the Public Health department.

In Sitapur lectures were given to tenants on sanitation, and it appears they have now begun to appreciate them. Manure heaps are now generally kept out of villages and in spaces allotted for the purpose. In some villages there are "akharas" where village people take exercise and play country games.

In Murarmau (Rae Bareli) villages the people were induced to store their manure outside the "abadi" and important drinking wells were cleaned and disinfected with permanganate of potash. Besides the three villages in which village aid dispensaries were opened previously, one more village of the estate has been selected for the purpose. A *pakka* drain was constructed and the road metalled in the Bachhrawan bazar of the Maurawan estate which is under the Village Sanitation Act. Fifty rural reconstruction societies were formed in the Dera estate (Sultanpur) and a start has been made in the Balrampur estate.

A few of the other estates also tried to tackle the problem, but without much success owing to lack of sufficient funds or the impoverished condition of the tenantry. The Board, however, trust that the importance of the subject will not be lost sight of, and as soon as conditions become more favourable again every endeavour will be made to ameliorate the moral and material condition of the tenants.

15. The accounts were generally well maintained. Excluding the Ranjitganj farm of the Isanagar estate (Kheri) Agricultural farms, seed depôts, etc. which was closed on October 1, 1929, there were ten agricultural farms at the beginning of the year. The addition of two farms, one in the Amethi estate (Sultanpur) and the other in the Ajodhia estate (Fyzabad), during the year raised the number from 10 to 12. The experimental agricultural farm of the Daulatpur estate (Bulandshahr) was made over to the ward for management, but he took no interest and failed to maintain any accounts. Hence there was no transaction during the year and the question of closing the farm is under consideration. The statement at the end of the report shows that four farms worked at a profit. Those at Sahespur-Belari (Moradabad) and Deochandpur (Ghazipur) showed excellent results and the net profits earned by them increased from Rs. 243 and

Rs. 373 to Rs. 3,135 and Rs. 1,860 respectively at the close of the year. The Porter agricultural farm (Katesar) is developing and made a profit of Rs. 1,556 during the year. The Cassels farm maintained by the Oel estate (Kheri) continued to work at a loss for want of irrigation facilities, but arrangements for a water supply from the canal have now been made, and it is hoped that the farm will work at a profit in future. The loss of Rs. 1,084 during the year in the model farm at Maharajganj (Balrampur) is attributed to the fall in prices of food-stuffs, otherwise it has maintained its utility by supplying seeds of improved variety. Sir Ralph Oakden and myself visited the farm which has undertaken development works of various kinds. The loss incurred by the Bargain and Retwagara farms of the Balrampur estate is chiefly due to the slump in prices, while in the rice farm at Tulshipur the outbreak of an accidental fire mostly accounts for the loss. Since these farms are doing good to the tenantry by popularizing new methods of agriculture and by introducing seeds of improved varieties, they are benefiting the estates concerned indirectly, and as such their working cannot be judged on financial results only, as remarked by the Board in the preceding report. The ward of the Fateh Chand estate (Muzaffarnagar) has started a farm independent of the Court of Wards. His farm crops won a prize and a gold medal at the exhibition.

The cattle-breeding farm in the Oel estate (Kheri) which worked at a profit of Rs. 125 up to the end of the previous year showed a loss of Rs. 462 due to the fall in the price of bulls, otherwise it is doing useful work in improving the local breed of cattle. The cattle farm at Balrampur, though still a losing concern, is doing pioneer work to improve the various breeds of cattle, and it is probable that the farm will have to be carried on for some time as a non-paying concern.

The only poultry farm is in the Katesar estate (Sitapur) and it worked at a profit.

The addition of three seed dépôts during the year increased the number from 20 to 23, but those maintained by the Bhan Pratap Singh (Bulandshahr), Majhauri (Gorakhpur) and Kotwara (Kheri) estates were closed. The statement at the end of the report, therefore, deals with 20 dépôts only. The majority of them worked at a profit. The seed dépôts of the Phulpur estate (Allahabad) have since been closed as their utility has been greatly diminished on account of the opening of similar dépôts by the Agricultural department at all the tahsils of that district.

16. Unlike the preceding year, a good deal of work was done in the Balrampur estate; holdings were consolidated in seven villages as compared with one in the previous year. The tenants of this estate are now beginning to realize, though slowly, the value of consolidation which is evident from the fact that the residents of the villages adjoining those in which consolidation was effected have on one or two occasions expressed the desire that their lands be also similarly dealt with. Settlement operations in the Bahraich and Gonda districts, where the bulk of the estate villages lie, will, however, retard progress for some time.

It is also satisfactory to note that in the Oel estate (Kheri), where no work in this direction was done in previous years, special efforts

were made resulting in holdings being consolidated in suitable areas in six villages.

As promised last year strenuous efforts were made to persuade the tenants of one selected village of the Murarman estate (Rae Bareilly) to agree to exchange their holdings, and some success was achieved, but subsequently they withdrew owing to economic depression and the influence of outside agitation.

In the Sitapur district consolidation was begun in one village of the Katesar estate and finished in another. Efforts made in two more villages proved abortive. Nothing substantial could be done in other estates in this district owing to (1) opposition of the tenants, (2) lack of enthusiasm on the part of the Court of Wards sarbarahkar due to intricacy of the problem, and (3) settlement operations.

The principle underlying the consolidation of holdings was as usual kept in view while resettling or letting out vacated and fallow lands in the Sahespur-Bilari and Govind Sahai estates, Moradabad. About 2,000 bighas in the former and 221 in the latter were allotted to tenants in compact areas as far as practicable. But the tenants, due to their illiteracy, do not realize the advantages of the scheme and are opposed to general consolidation. Some success was also achieved in the Sher Bahadur Singh (Shahjahanpur), Rampura (Jalaun), Bharawan (Hardoi) and Jhandi (Kheri) estates.

The experiment is being tried in a village of the Qila Partabgarh estate, and if it proves successful it will be extended to a few other villages chiefly where co-operative societies exist. Compactness of holdings is borne in mind in making new settlement of the parti and other lands.

Complaints have again been made that patwaris adopted a hostile attitude towards the movement. This is unfortunate and shows a lack of control over these subordinate officials.

With very rare exceptions the reports from the province of Agra and some from Oudh are generally silent on the subject. This is disappointing, and the Board take the opportunity of inviting the attention of all the officials serving under the Court of Wards to paragraph 8 of Government resolution no. 1418, dated August 5, 1930, on the preceding report, and trust that there will be no departure from the present policy of extending consolidation wherever it is practicable and of educating the tenants to its advantage. The task is no doubt of an arduous nature beset with many difficulties, but the benefits arising out of the compactness of holdings are such as to improve the economic condition of the tenantry, and if constant efforts are made it is hoped that the conservatism of the tenantry, which is the main stumbling block in the furtherance of the organization, will die out in course of time.

With a view to give further impetus to the movement, the Board have, in consultation with the Director of Land Records, decided that the patwaris should be held responsible for making the necessary changes in the khataunis as a result of the consolidation of holdings effected among the tenants, so that the village papers be corrected and mutation effected free of charge.

17. The total expenditure on education amounted to Rs. 1,25,458 against Rs. 1,14,474 in the preceding year. In addition, Rs. 21,074 was spent on repairs to, and construction of, school buildings. The incidence of total expenditure on the total collections of the current demand of all the estates works out at one per cent.

Rupees 8,980 was spent on 20 schools entirely maintained by the estates. Aid to other schools amounted to Rs. 13,104. Subscriptions to other educational institutions, e.g., the Canning College, Lucknow, scholarships, etc., absorbed Rs. 1,03,374. Of the latter figure Balrampur accounts for Rs. 54,953.

Out of 26 boys sent up by the D. S. M. High School, Kanth (Moradabad) for the High School examination, 15 were successful. One passed in the first division and secured a scholarship of Rs. 16 per mensem. Ten schools maintained by the Rampura estate, Jalaun, worked satisfactorily. Eight upper primary and lower primary schools in the Bijaiagarh estate (Mirzapur) continued to do well. Due to the adverse decision of the High Court in a title suit against the Majhauli estate (Gorakhpur) the proposals to finance the Kaushal Kishore school at Majhauli and to construct a new building for it have been held in abeyance.

The Katesar estate (Sitapur) contributed Rs. 2,000 to the district board for the maintenance of 36 schools, including one girls' school. Compulsory primary education was introduced in 25 schools in the estate, but it was not popular with low caste tenants whose children have been in the habit of working in the fields and thus earning their livelihood. All the 22 schools run by the district board in the Oel estate (Kheri) are working satisfactorily. Rupees 6,000 was paid to the local Arya Kanya Pathshala for building a girls' school. The Sanskrit Pathshala at Kurwar (Sultanpur) maintained its record of efficiency.

A scholarship holder of the Bagha estate (Mirzapur) passed the LL.B. previous examination in the 1st division.

Thirty-seven students passed the High School examination from the Lyall Collegiate School, Balrampur. Among the ex-students, three passed the Intermediate, three the B.A. and one the M.A. examinations. All the four girls who sat for the lower middle examination were successful. Two of them passed in the 1st division. The scholarship holder referred to in the preceding report continued his course of study in England, and another scholar was sent to England at the close of the year.

18. The total expenditure on sanitation and medical aid to the tenantry amounted to Rs. 2,24,604 against Rs. 1,91,211 in the previous year. In addition to the above Rs. 27,336 was spent on the repairs to, and construction of, medical buildings. The percentage of total expenditure to total collections of the current demand of all the estates works out to 1.6. Twenty-five dispensaries were entirely maintained by 14 estates at a cost of Rs. 96,771 and Rs. 5,443 was spent by 57 estates on the free distribution of medicines to their tenantry. Subscriptions amounting to Rs. 25,909 were given towards medical.

institutions and dispensaries and Rs. 34,195 was spent on other medical objects, the expenditure on sanitation being Rs. 62,286.

The dispensaries maintained by the Landhaura, Rampura, Bettiah, Majhauri, Oel, Jhandi, Kurwar and Qila—Partabgarh estates continued to do useful work and were very much appreciated by the public. The number of patients, both indoor and outdoor, treated during the year rose considerably. There was also a marked increase in the number of major and minor operations performed at these dispensaries. The dispensaries were well equipped and as usual were visited by the Civil Surgeons concerned several times during the year.

The Sahespur Bilari estate spent Rs. 2,274 on the upkeep of the female dispensary. A large number of outdoor and indoor patients were treated and surgical operations performed. The "Vaid" paid by the Sikri estate (Jalaun) rendered valuable services to the tenantry. The Vaidic charitable dispensary maintained by the Kanhaiya Lal estate (Allahabad) worked well.

The eight male dispensaries and one female dispensary maintained by the Balrampur estate maintained their record in every way. 2,754 indoor and 136,112 outdoor patients were treated. Major operations were performed in 667 cases. New operation rooms were constructed at the Tulshipur and Mathura Bazar dispensaries. Proposals for building new dispensaries in the estate have been sanctioned by the Board. During the year, the estate also donated Rs. 30,000 for further equipment, etc., for the Balrampur Hospital, Lucknow.

The joint travelling dispensary maintained by the Kotwara and certain other estates in the Kheri district continued to work well.

The Court of Wards attach great importance to the welfare and health of its tenantry. The scheme for maintaining subsidised dispensaries in the rural areas, vide Medical department G. O. no. 114/V—171, dated January 18, 1930, has been brought to the notice of the local authorities for application to the estates under the Court of Wards, and it is hoped that the number of dispensaries will increase when normal conditions return.

19. The total subscriptions on other charitable and utility works

Other subscriptions. amounted to Rs. 94,866 against Rs. 1,26,839, or 7 per cent. of the total collections of the current demand of all the estates. The decrease is due to the fact that the latter figure included a donation of Rs. 30,000 from the Ausanganj estates (Ghazipur) to the Kashi Anathalaya, Benares.

The Balrampur estate contributed Rs. 5,000 towards the Gokaran Nath Memorial at Lucknow. The Keolaria, Ale Imran and Sahespur-Belari estates gave the largest donations of Rs. 2,000, Rs. 1,500 and Rs. 2,000 respectively towards the new building fund of the Bareilly College. A sum of Rs. 460 was also paid by some of the estates towards the All-India Thanksgiving Fund in memory of the recovery of His Majesty the King-Emperor from his serious illness, which could not be done last year. The other main objects of charity were the Child-welfare and Maternity League and the Kashi Anathalaya of Benares. Subscriptions were also paid to the Agra Province Zamindars' and the British India Associations.

The McDonnell Orphanage at Balrampur and the poor house at Majhauri upheld their good records in every way.

20. The total amount invested by various estates aggregated 14.63 lakhs against 10.22 lakhs in the preceding year. Fourteen estates invested 1.73 lakhs in securities; while 27 estates purchased landed property worth 4.34 lakhs, the chief among the latter being Rampur Mathura (Sitapur) 1.72 lakhs, Ausanganj (Ghazipur) 1.0 lakh, Oel (Kheri) Rs. 35,686, Hardoi (Etawah), Rs. 28,120, Galgalha (Unao), Rs. 16,017, and Afzal Husain (Kheri) Rs. 14,778. Of the 26 estates which assisted others by lending 8.50 lakhs, the Balrampur, Oel and Bhaiya Suraj Prasad Singh estates advanced 3.93 lakhs, 1.50 lakhs and .50 lakh respectively; the rest lent less than Rs. 50,000 in each case.

21. The year closed with a cash balance of 29.71 lakhs to the credit of the estates against 33.31 at the end of 1928-29. Due to poor realizations, the balance in a number of estates was negligible. Owing to unfavourable prospects for the current year some of the estates kept larger reserves, but in the majority it was just sufficient to meet the current expenses for the period when collections are not in progress. Where, however, the case was otherwise, part of the balance has since been utilized in loans to other Court of Wards estates, repayment of debts, etc.

Five estates had more than half a lakh to their credit. 13.72 lakhs were advisedly retained in the Balrampur estate to finance the scheme for the electrification of the town and other estate buildings and to advance loans to certain estates. Since, however, rents were coming in very slowly till the end of January last, it appears that a major portion of the balance has been encroached upon in defraying the ordinary expenses of the estate which are usually high. A large balance in the Ajodhia estate was reserved for *tagavi* advances and the purchase of shares in a village. A further loan of one lakh is to be advanced from the Oel estate to the Katesar estate. Loans from the Rampura estate have already been sanctioned to other Court of Wards estates during the current year. The high balance in the Alaud-din estate (Meerut) has since been utilized in the redemption of a village.

The Board are satisfied that no money is allowed to remain idle without good reasons.

22. Attention was concentrated on consolidating the existing societies rather on starting new ones. Ten new Agricultural banks. societies were, however, organized during the year, raising the total number to 435 in 24 estates with a working capital of Rs. 5,54,840. Rupees 17,500 were advanced during the year as fixed deposits in, or loans to, district co-operative banks as follows:—Ausanganj (Ghazipur) Rs. 1,000, Majhauri (Gorakhpur) Rs. 500, Oel (Kheri) Rs. 13,000, Ajodhya (Fyzabad) Rs. 2,000, and Ramnagar (Gonda) Rs. 1,000.

With the assistance of the Court of Wards staff an interesting experiment on a co-operative basis is being conducted in the Fyzabad district. A compact area has been earmarked for intensive work; several schools for adults have been started, sanitary and agricultural

improvements are being carried out, scouting is being introduced and Persian wheels have been popularized. Similar efforts were also made in the Partabgarh district, and the members now feel more responsibility and the experiment of paying rent by them to the Court of Wards through the society is under trial. The Registrar, Co-operative Credit Societies, however, points out that during the past three years advances to societies have exceeded repayments and that some of them are beginning to develop into institutions for show rather than for work. The Board agree with the Registrar that repayment by means of further borrowing is not a healthy sign, and it is hoped that this tendency will stop and that things will improve in the near future.

The Balrampur Co-operative Bank continued to flourish with the support of the estate, and its affiliated societies earned a profit of Rs. 6,152 against Rs. 5,882 in the previous year, though their number fell from 100 to 98 as two came under liquidation. Work was concentrated on improving the present societies and in introducing an interest in village welfare and the general social and educational advance of the people in addition to the normal financial side of the work. A small agricultural exhibition was also held at the Debi Patan fair.

The Oel and Katesar estates in Kheri and Sitapur respectively continued to pay for the supervising staff for the societies, and in the former estate the re-organization work is nearly complete. In the latter, one society went into liquidation and probably two more will have to do the same, but five new societies were organized, though they could not be registered until the close of the year. The societies earned a profit of Rs. 4,063 against Rs. 3,138 in the preceding year. Seven village dispensaries were opened and about 200 people treated free and some of the well established societies declared a dividend of 10 per cent. on fully paid up shares, and this helped to popularize the movement. An unfortunate feature is, however, that more than 50 per cent. of the demand was due from members, and this shows the monopolization of loans by the members themselves, which is not a good sign.

One of the best societies is in the Basaidih Tikra estate. Its activities extend to agricultural and sanitary improvements and the popularization of improved seeds and implements as well as the introduction of the village aid scheme and the distribution of free medicines. Two 'dais' were trained in their work.

The special manager, Dera (Sultanpur), complains that the principle of co-operation for the sake of mutual benefit is very rarely understood by the people concerned and that loans are advanced for unauthorized purposes on one pretext or the other. Since this practice has an adverse effect on the financial condition of the tenantry it is hoped that the Co-operative department will see that loans are granted cautiously and only after a full inquiry as to their necessity.

In addition to the ten societies in the Ausanganj estate (Ghazipur), which are all doing well, the Court of Wards have opened a land mortgage bank at Saidpur in which the Ausanganj estate is investing Rs. 10,000. The Collector has taken great care in starting this bank,

(20)

and it is hoped that it will succeed and its activities and usefulness expand.

The Rampura estate (Jalaun) helped the Co-operative department to organize better living societies, training of 'dais' and of teachers in first aid. Other districts worthy of mention for the help given to this movement are Moradabad, Etawah, Gorakhpur and Dehra Dun. Although it cannot be claimed that the financial condition of the societies generally was satisfactory, yet those in the Court of Wards estates were slightly better off than others, for the repayments in them constituted 52.4 per cent. of the total outstanding against a provincial average of only 40 per cent. For this the interest taken by the Court of Wards managers and assistant managers is largely responsible. In the course of time these co-operative societies should be the nucleus for village uplift activities including agricultural improvements and consolidation of holdings, and the Board trust that even more zeal will be exhibited in future in promoting the movement so as to make it really co-operative. The Board specially commend the work of the special managers of Fyzabad, Ghazipur, Partabgarh, Sitapur and Kheri and the assistant manager of Kanth (Moradabad).

23. The successive failures of crops coupled with the general economic depression due to the abnormal fall in prices seriously undermined the resources of the tenantry in the western part of the province. Elsewhere their condition was generally satisfactory, though not free from the effect of the general decline in prices. To alleviate the situation rents were either suspended or remitted liberally in many of the estates.

Balrampur and several estates in the Lucknow division and the Partabgarh district were the worst sufferers from epidemics. Health officers visited the villages and treated the patients, and medicines were freely distributed and drinking wells disinfected. Vaccination, inoculation and evacuation were encouraged. Fires also caused serious loss in some of the estates in the Saharanpur, Moradabad, Sitapur and Kheri districts. Wood was given free to the tenants to rebuild their houses. In the Landhaura estate where a portion of a village was wholly destroyed a free gift of Rs. 7,000 was made to the tenants. Cattle disease was reported from four estates only, but in these a large number of cattle succumbed. The locust pest affected some nine estates and did considerable damage to the crops. The Court of Wards staff co-operated in the anti-locust measures taken in the districts concerned. It is gratifying to note that there was no agitation of any serious kind in the villages under the Court of Wards. In a few estates, however, where some trouble was anticipated prompt action was taken to nip it in the bud. The general good relations between the Court of Wards and its tenants were maintained.

24. The numbers of suits instituted during the year for ejectment, enhancement and arrears of rent were 1,740, 107 and 4,358 against 1,087, 400 and 3,602 respectively in the preceding year. Miscellaneous applications including those for delivery of possession, applications under section 185, Oudh Rent Act and suits for correction of village papers, etc., were also filed by many estates.

The considerable fall in the number of enhancement of rent suits indicates sympathetic management, as it was realized that in the present economic conditions enhancements were hardly possible. The rise in the number of suits for ejectment and arrears of rent was not great considering the conditions of the year. The tenants were treated with leniency, and the institution of such cases was mostly confined to habitual defaulters, refractory and contumacious tenants. Considering the number of estates under the Court of Wards and the size of many of them the volume of litigation was not generally high, but in those estates where it was, the district officers have already been directed to reduce cases to the minimum.

Litigation was, on the whole, conducted with discretion and success, and the policy of keeping it as low as possible without sacrificing the interests of the estates in any way continued to be maintained.

25. Including 790 cases pending from the preceding year, 90 estates in 29 districts had to resort to this section in 2,699 cases. The total demand for recovery was 1.53 lakhs approximately. Of this, only Rs. 75,287 or 49.0 per cent was realized against 64.2 per cent in the previous year. The estates in the Meerut division and in the Aligarh and Gorakhpur districts are mainly responsible for this low percentage.

The reports show that action under this section was generally taken only against truculent tenants. The Board, however, reiterate their remarks in the preceding report that this section should not be used to cover the defects of an incompetent ziladar.

26. There were 16 suits exceeding Rs. 10,000 in value in which the Court of Wards was involved as plaintiff or defendant. Of these, 4 were decided wholly and 1 partly in favour of the Court of Wards, 3 were decided against it, 1 was compromised and 7 remained pending at the end of the year. The declaratory suit for setting aside the previous compromise decree brought by Thakur Ram Nath Bux Singh against Thakur Narendra Vikramjit Singh, Thakur Jagdeo Bux Singh and Thakur Bhanwar Singh, minor ward (Ramgarh Gudariya estate, Sitapur) represented by the Court of Wards, which was shown as pending in the preceding report, was dismissed during the year. The suit brought by Rani Gulab Kunwar alias Rani Chandelan, the Junior Rani, against the Rajaur estate (Etah) claiming half the movable and immovable property including the outstanding debts of the late Raja was defended by the Court of Wards on the ground of a custom of single heir succession, but was lost and a decree for possession of half the property along with Rs. 79,946-3-0 as mesne profits and Rs. 5,818-13-0 as costs of the suit was passed in favour of the plaintiff. The case of Bhai Mahtab Singh, plaintiff, versus Landhaura estate (Saharanpur), defendant, is still pending in the court of the Senior Subordinate Judge, Jammu.

Of the suits which remained undecided at the close of the year the more important ones were:—

- (1) Anand Bahadur Singh, plaintiff, versus Umraigaon estate (Bara Banki), defendant—value Rs. 1,00,000. The plaintiff claims possession of the entire estate and mesne profits

on the ground that he is the real reversionary heir of the last holder of the estate and that the minor ward is an impostor.

- (2) Pipri estate, plaintiff, versus His Highness Maharaja Rana Udaibhan Singh of Dholpur, defendant, Bahraich—claim valued at Rs. 3,75,000. This suit has been brought by the Court of Wards on behalf of the minor ward, Sardar Daljit Singh, for the recovery of certain property granted by Government, which was transferred by the late proprietor of the estate in the year 1915 to the Maharana of Dholpur, on the ground that he had no right to do so under the terms of the grant.

Appeals.—The Court of Wards also appeared as appellant or respondent in 18 appeals. Of these 7 were decided wholly in favour of the Court of Wards, 2 against it and 9 remained pending at the end of the year. The appeals filed by Chaudhri Balwant Singh of Landhaura (Saharanpur) against the Collector of Saharanpur and Musammam Ram Kunwar, and by Sheikh Ejaz Ali and others against the Balrampur estate and others, valued at Rs. 2,00,000 and Rs. 30,00,000 respectively, which were pending last year, have since been dismissed with costs. The Rajaur estate (Etah) which was unsuccessful as mentioned above in the suit brought by Rani Gulab Kunwar alias Rani Chandelan has filed an appeal in the High Court; the appeal remained pending at the close of the year. The appeals filed by Thakur Umrao Singh against the Partapner estate (Etawah) and by Kunwar Anand Singh against the Kashipur estate (Bijnor) which were shown pending in the preceding report remained undecided by the High Court.

27. During the year the number of estates the accounts of which

Audit of accounts.

were subjected to audit increased from 125 to 134. The observations made by the Examiner, Local Fund Accounts, on the audit operations are stated in brief in paragraphs 253—275 of the annual report on the working of the Local Audit department for the year 1929-30, published on pages 253 to 258, Part VIII of the *United Provinces Gazette*, dated February 28, 1931. The accounts of Banda, Etah, Fyzabad, Shahjahanpur, Sultanpur (Kurwar) and Unao were unsatisfactory and capable of much improvement, while at Allahabad, Bahraich, Bijnor, Cawnpore, Farrukhabad, Gorakhpur, Hardoi, Lucknow, Kheri (other estates), Mainpuri and Bura Banki the accounts kept at Sadr were on the whole satisfactory, but those of the mufassil were capable of improvement and require stricter supervision. In other districts they were generally satisfactory and well maintained.

The Sadr accounts at Balrampur were on the whole satisfactorily maintained, but those of the agricultural farms are still capable of further improvement and the mufassil accounts are in need of greater check and supervision.

The Board are again grateful to the Examiner, Local Fund Accounts, and his staff for the care they have taken in auditing the accounts. The irregularities and mistakes detected have been brought to the notice of the local officers concerned and every effort is being

made to effect a closer supervision by special and assistant managers so that the accounts generally may improve and irregularities be minimised.

28. A peon of the Patiali estate (Etah) accidentally lost Rs. 17 while crossing a stream. Owing to a theft in the house of Chaudhri Nabi Jan, ward (then honorary assistant manager) of the Kakrali estate (Hardoi), the estate suffered a loss of Rs. 30 on account of his permanent advance, the pay of orderly, etc. The amounts in both the cases were remitted.

A ziladar of the Baraon estate (Allahabad) sent through a peon Rs. 89 for credit into the sub-treasury. The peon absconded with the money, but was arrested by the police. He was sentenced to 6 months' rigorous imprisonment and the amount of Rs. 89 recovered from his surety.

As a result of a burglary committed in one of the ziladaris of the Kotwara estate (Kheri) the iron safe which contained Rs. 1,383 on account of rent collections mostly was pilfered. The ziladar was found to be careless and was ordered to make good the loss which he did. An entry was also made in his character roll.

A sarbarahkar, a ziladar and two peons of the Kashipur estate (Bijnor) were reported to have misappropriated the Court of Wards money. They were convicted under sections 409/120, Indian Penal Code.

The Mukhtar-i-am of the Bijnor Court of Wards referred to in the preceding report is still absconding. There is little prospect of the money being realized as the property owned by him is heavily mortgaged.

A dacoity was committed in the house of one of the ziladars of the Rampura estate (Jalaun) and Rs. 275 on account of collections was stolen along with the other property of the ziladar. The police investigation showed that a real dacoity did take place and the amount was remitted.

29. It is gratifying to note that the members of these committees evinced a keener interest in the affairs of the estates and their advice was usually sound.

It is, however, disappointing to notice that some of the members in the Allahabad, Azamgarh and Jhansi districts took little or no interest. In the last named district several meetings had to be adjourned for want of a quorum. The Board appreciate the assistance given by the committees in general and trust that the members will continue to give that whole-hearted, prudent and firm advice which is to be expected from men of their leading position, ample experience and known good sense.

The following gentlemen have been specially brought to the notice of the Board for their keen interest and assistance which are acknowledged :—

Rai Sahib Chaubey Radhe Lal, Babu Kunj Behari Lal (Meerut),
Raja Suriya Pal Singh of Awa, Rai Inder Narain of Sakit
(Etah), Khan Sahib Saiyid Haider Sultan, Babu Gairdan Lal

(Farrukhabad), Rai Sahib Babu Kanh Kumar, Mahten Rani Bahu (Jalaun), Rai Bahadur Munshi Raj Bahadur Lal and Khan Bahadur Muhammad Mustafa Khan (Mirzapur), Thakur Shambhu Singh (Unao), Rai Bahadur Pandit Shyam Behari Misra and Babu Avadh Behari Lal (Partabgarh), Raja Sheikh Ejaz Rasul Khan Sahib, C.S.I., of Jahangirabad (Bara Banki).

The Board regret the death of Kunwar Meharban Singh, a member of the Jhansi District Advisory Committee, which occurred during the year.

30. The Central Advisory Committee was re-organized during the year, vide Revenue (A) department notifications nos. 768/IA-379-1924 and 774/IA-379-1924, dated April 22 and 23, 1930 respectively. One meeting of the old committee was held prior to the re-organization and one meeting of the new committee subsequently. It is hoped that in its new form, which is more representative, the committee will be of even more help than it was formerly. It is generally consulted in the more important matters concerning the estates and its advice is of great importance, particularly in such matters as the education and marriages of wards and large sales of property.

31. During the year 52 new panchayats were established in the Sahespur Bilari estate (Moradabad), while in the Govind Sahai estate in the same district they were formed in 5 villages. Action is being taken to get them re-organized under the Village Panchayats Act. Court of Wards muqaddams were, with the consent of tenants, appointed panches and sarpanches of these panchayats which are expected to prove helpful to the management. The village panchayat in the Hardoi estate, Etawah, is co-operating satisfactorily, while a new one has been organized in another village of the same estate.

As usual the Court of Wards panchayats in the Katesar and Rampur Mathura estates (Sitapur) kept written records of the decisions they made and 504 and 35 disputes respectively were decided orally or in writing.

Fifty-two panchayats formed in the preceding year in the Isanagar, Majhgain, Jhandi and Kotwara estates (Kheri) continued to do good work. One hundred and two disputes between the tenants were referred to them, and their decisions in most cases were accepted by the parties. The formation of panchayats is going on in the Dera estate (Sultanpur).

The number of panchayats in the Balrampur estate rose from 229 to 244 and a large number of cases were decided by them. Generally speaking the panches have worked well and their services have been appreciated. The system of immediately removing those members of a panchayat whose work is not satisfactory or who are indifferent to their duties has resulted in villagers having more confidence in the decisions of the panchayats. As is very natural, the members of village panchayats know the "kachcha hal" of each case, and the assistance their decisions afford to the estate is of particular value in the settlement of domestic troubles and the like.

It is a pity that no interest was evinced in most of the other estates, though the preceding report enjoined on all special and assistant

managers to devote personal attention to the development of panchayats. Since there can be no two opinions about the desirability of creation of panchayats which are calculated to go far towards fostering village unity and social improvement, the Board trust that proper attention will be paid to the movement in future, and that their repeated instructions on the subject will be followed.

32. The reports show that the special and assistant managers were generally more alive to the necessity for touring by special and assistant managers. Credit goes to the special managers of Bijnor, Ghazipur, Gorakhpur, Sitapur, Oel (Kheri), Fyzabad, Gonda and Kurwar (Sultanpur) and the assistant manager, western division (Balrampur), who remained on tour between five and six months. Between four and five months were spent on tour by the special managers of Etawah and Allahabad, and the assistant managers of Kanth (Moradabad) and Unao. Those who were on tour for less than three months are the special managers of Saharanpur, Meerut, Agra-cum-Aligarh, Muttra, Etah, Sahespur-Belari (Moradabad), Mirzapur, Hardoi, Kheri (other estates), and Bara Banki, and the assistant manager, Lucknow. The Board realize that in some cases touring was retarded as a result of transfers made during the year, but where it was inadequate without sufficient reasons the officials concerned have been directed by the Board, while reviewing the accounts of the estates, to be more vigorous in touring and vigilant in supervision.

The proprietor of the Mahmudabad estate (Unao) and a few others who worked as honorary assistant managers also made useful inspections.

33. As a result of the observations made in paragraph 34 of the preceding report requiring district officers to pay more attention to rules 231 to 233 of the Court of Wards Manual, the number of offices inspected increased from 15 to 18. This is an improvement, but compared with the number of the Court of Wards offices in the provinces it is essential that more attention should be paid to the rules. The Board, however, realize that in view of the multifarious duties which the district officers are now required to perform, they in some cases have not sufficient time to make a thorough inspection of the offices, and consequently the Board are considering another system.

34. Last year's report showed that the Court of Wards estates had had to be nursed through a year of adverse agricultural conditions, but it was thought that, with the exception of the western divisions, brighter times were ahead. Unfortunately that has not materialized, and in fact the reverse has happened. No one foresaw the very serious economic conditions which were going to arise last year owing to the almost unprecedented fall in the prices of agricultural produce. Naturally this fall in prices very seriously affected the Court of Wards estates, and, coming as it did after a lean year generally and a succession of bad monsoons in the western districts, the result has been very serious. The full effect of this fall in prices was not felt so much in the year under report as it will be in the present year, because it did not begin to take place until the *kharif* collections

of the year under report had almost been completed. In the Agra and Meerut divisions the Board are faced with a most difficult situation. Remissions had again to be freely given, particularly in Agra, and owing to the impoverished state of the tenantry and their inability to get an economic price for their produce the collections of the balance fell considerably. Many of the estates of that area were unable to pay even interest charges on their debts, and as this has been the case for the last few years in some of the Agra estates, they have now been reduced to a state almost of bankruptcy. The Board are fully awake to the seriousness of the situation and have rigidly reduced expenses to the bare minimum and are doing all in their power to nurse the estates through the present crisis. Much will depend on the time that lapses before economic conditions return to normal. These worries and difficulties added considerably to the work of Commissioners, district officers and special and assistant managers; many of whom again showed marked success in dealing with the situation. Amongst the Commissioners the Board desire to mention specially Messrs. Stubbs, Oppenheim, Walton, Drake-Brockman and Crosthwaite, and amongst district officers Messrs. Bomford, Darwin, Dible, Nethersole, Pedley, Moss, Cooke, Vishnu Sahai and Kamla Kar Dube. The following special managers also deserve special mention:—Messrs. Dunne, Coombs, Rai Bahadur Pandit Kashi Nath, Kunwar Jasbir Singh, Khan Sahib Muhammad Nazir, Babu Jhumak Lal, Saiyid Ali Zamin, Rai Bahadur Babu Ram Saran Dass, Babu Amar Singh, Rai Bahadur Kunwar Kaushalendra Pratap Sahi and Mr. J. N. Nagu, and amongst assistant managers Babu Bhogi Lal, Thakur Ram Sundar Singh and Babu Durga Prasad.

I have the honour to be,

Sir,

Your most obedient servant,

W. CHRISTIE, M.C., I.C.S.,

*Secretary, Board of Revenue,
United Provinces.*

ORDER OF GOVERNMENT.

No. 1089/IA.

REVENUE (A) DEPARTMENT.

Dated Allahabad, July 29, 1931.

RESOLUTION.

READ—

The annual report on the working of the Court of Wards of the United Provinces for the year ending September 30, 1930.

OBSERVATIONS.—There were 209 estates under the management of the Court of Wards during the year as compared with 202 in the preceding year. Fourteen new estates with a rent roll of 7.60 lakhs were taken over, among them the two most important being the Bharatendu estate, Farrukhabad, and the Amethi estate, Sultanpur. Seven estates with a rent roll of .94 lakhs were released.

2. The total rental demand was Rs. 1,53,20,770, and allowing for remissions, suspensions, advance collections and sums secured by decrees and bonds, the net recoverable demand amounted to Rs. 1,47,89,893 of which 94 per cent. was collected against 93.4 in the preceding year. The lowest percentage in the provinces was 75.5 in the Meerut division. Fyzabad with 98.7 remained first and Benares was second with a percentage of 97. Considering the conditions of the year, this is very satisfactory. The total demand for Government revenue, rates and cesses excluding remissions and suspensions was Rs. 53.63 lakhs as compared with Rs. 42.01 lakhs or about 35 per cent. of the current rental demand.

3. The cost of management shows a slight increase from 16.30 lakhs to 16.86 lakhs but the percentage decreased from 12.8 to 10.6. The investments during the year rose from 10.22 lakhs to 14.63 lakhs and no money available was left idle.

4. The cost of the maintenance and education of wards was Rs. 35,27,896 against Rs. 43,58,618 in the previous year. There were 114 wards including 10 girls between the ages of 10 and 21. The Governor in Council is pleased to find that the education of the wards has been receiving the attention which it deserves, and that some of them have attained academic degrees and success in law examinations. The report of the Board of Revenue also shows marked success in the efforts to train certain wards in estate management.

5. Out of the outstanding debts amounting to Rs. 215.04 lakhs, Rs. 51.96 lakhs were repaid by 12.51 lakhs of fresh loans, 7.52 lakhs from sale of property and 31.93 lakhs from surplus profits. The repayment from surplus profits shows considerable improvement. The Governor in Council appreciates the difficulty felt by the Board in carrying out the liquidation schemes during a period of acute economic depression and fall in the marked value of landed property.

6. The total amount spent on improvements was 14.71 lakhs against 12.74 lakhs in the preceding year. It is gratifying to see that more money was devoted to works of public utility such as roads, irrigation and agricultural improvements. Much useful work was done in the way of introducing improved seeds, implements and breeds of cattle in the Ajodhia, Muzaffarnagar, Sahspur-Bilari, Katesar and Oel estates. Village uplift work in the Partabgarh district has already met with appreciable success in certain directions, the outstanding features being sanitation, adult schools, village aid dispensaries and reclamation of the Pasis. The experiment which is being carried out on a co-operative basis in the Fyzabad district of intensive work in a defined area is full of promise. The other estates mentioned in this connection are Moradabad, Sitapur, Murarmao (Rae Bareli) and Sultanpur. The Governor in Council cordially endorses the Board's opinion that as soon as conditions are more favourable, other estates which have been unable for lack of funds to tackle the problem properly, should do so with the zest and energy which it requires. He also considers it essential for the promotion of unity and social progress that the formation of *village panchayats* should be encouraged as much as possible.

7. The number of agricultural farms has increased to 12 and only 4 of them — [Sahspur-Bilari (Moradabad), Deochandpur (Ghazipur), Katesar (Sitapur), and Oel (Kheri)], are reported to have worked at a profit. The value of these farms, however, lies in demonstrating to the tenantry the possibilities of future developments by improved methods, seeds and implements. Their indirect influence in the neighbourhood is all to the good even if for the time being they do not yield a profit. Only one poultry farm (in the Katesar estate) exists, and the Governor in Council considers that more activity in this direction is called for.

8. Efforts towards consolidation of holdings have been made in Balrampur (Gonda), Oel (Kheri), Murarmao (Rae

Bareilly, Sahspur-Bilari (Moradabad), Shahjahanpur, Rampur (Jalaun), Bharawan (Hardoi), Jhandi (Kheri) and Qila Partabgarh estates. The Governor in Council realizes the difficulties, and though success is slow, he still hopes that with perseverance and keenness on the part of the local officers in charge of the Court of Wards administration of the various estates, better results will be gained in future.

9. The expenditure on education amounted to Rs. 1,25,458 against Rs. 1,14,474 in the preceding year besides Rs. 21,074 spent on repairs and construction of schools. Twenty schools were wholly maintained at the expense of the Court of Wards while the policy of granting aids and subscriptions to other schools and colleges has been followed as before. Compulsory education schemes are not popular yet, particularly amongst villagers of the poorer classes. The expenditure on sanitation and medical aids was Rs. 2,24,604 against Rs. 1,91,211 in the previous year. The Court of Wards maintained 25 dispensaries entirely at a cost of Rs. 96,771. The Board realize that the welfare and health of the tenantry is a matter of real concern and it is hoped that the scheme of subsidized dispensaries in rural areas will be taken up as soon as finances will permit.

10. The effect of the fall in prices, and the successive failures of crops are telling very hard on the tenantry, particularly in the western districts. Considerable damage was also caused by locusts in nine estates. Liberal remissions and suspensions were granted to relieve the general distress and it is gratifying to note that despite severe adverse conditions the relations between the Court of Wards and its tenants continue to be good. Litigation was kept as low as possible and the Governor in Council views with approbation the fall in the number of suits for enhancement of rent which is thoroughly justified by the prevailing economic conditions. The policy of economy necessary at all times, was never more so than at the present juncture, and the Governor in Council is glad to see that the Court of Wards expenditure is being cut down to the bare minimum.

11. The Governor in Council desires to thank the Board of Revenue, their Secretary, Mr. Christie, and the officers mentioned in the report, for their able administration of the Court of Wards department in a year of exceptional difficulties, and hopes that the still greater strain which is certain during the current year, will be borne with the same sense of duty. He is grateful to the members of the Central Advisory Committee and those of the district advisory committees who have given valuable assistance and advice.

ORDER.—Ordered that a copy of this resolution be forwarded to the Secretary to the Board of Revenue, United Provinces, for the information of the Board.

Ordered also that this resolution be published in the *United Provinces Government Gazette*.

By order,
G. M. HARPER,
Secy. to Govt.,
United Provinces.
